

Summary of Orientation session organized in

DDU Government PG College, Sitapur

An Orientation Programme for fresh undergraduates of all the faculties namely BSc, B.Com, and BA is being organized every year by our institute. The orientation programme acquaints the students with the Rules and Regulations of the Institute. All the teachers introduce themselves and also the work and the duties they perform on the campus so that the fresh students know exactly whom to approach in case of any problem they face on the campus. The students are told about various committees and the activities that take place all the year round for their all round development, the NCC, NSS, Rovers and Rangers and other such important cells. The students get to know the vision and mission of the institute, they also come to know about the core values that each individual abides by to keep our institute soaring to new heights with each passing year.
